

THE RECEPTIONIST'S VOICE (TRV)

Great for receptionists and frontline staff...everywhere.

Purpose:

Not a day goes by without a telephone being answered in the office somewhere. But how does your voice sound when you answer it? Do you project a professional image? The telephone you answer is the dynamic tool that connects you and your company directly to people, places and profitable opportunities, providing you know how to use it. Sounding good on the telephone can well make the difference between a happy and a disgruntled customer, which naturally reflects in your company's bottom line. Your voice is often the only part of you that the person at the other end of the line ever gets to meet. What does your voice say about you? What does your tone say about your company? Are you projecting the right image?
