

# TEAM COMMUNICATIONS (CTG)

A great course for anyone...that works in teams.

## Purpose:

This course is designed to develop and foster good team communications. In this course you will learn what it takes to communicate your ideas clearly with all team members and develop meaningful lines of contact. You will discover how the way you behave now may be helping or hindering the process of communication. We will take a good look at body language and how it is used to build rapport and good relationships, as well as listen to your voice, improving how you use it to communicate your ideas. Understanding how to get your message across to groups of people, as well as in smaller meetings and one-on-one personal interviews and telephone conversations, will be covered in depth. After this training session you should expect to feel a lot more confident in your ability to communicate.

© The Voice Business 2018

This is a workshop all about communicating in teams. In it you will learn...

- **Team Speak** - breathing, diction, vocal variety and projection- making what you say more thoughtful, powerful, persuasive and interesting-so that others can understand you.
- **Team Movement** - how to move, gesture and use space effectively even when you are sitting down. Don't let your body tensions and bad posture undermine your message.
- **Team Work** - how to organise yourself and your material and scripts properly for impact and well thought out communications.
- **Team Attitude** - how to get a grip on your emotions and attitude so that you work well as an individual operator and as a member of your team. Feel confident and help others to work well too.
- And much, MUCH more!
